

2018

January e-News from the Mon Valley ICD

Happy New Year 2018!

Very soon the Spring Training & Education Guide will be arriving in mailboxes with a new size and new look! It's packed with great information about the benefits our USW members receive through the ICD in Tuition Assistance and Custom Courses.

Check out the many new learning opportunities like Stained Glass, Adobe Photoshop, and Advanced Welding as well as popular returning courses such as Small Engine Repair, First Year Beekeeping, Windows 10 and more. Registration will open mid-January on the website with classes beginning late January through mid-June.

When you visit our website www.monvalleyicd.com you'll see a fresh look and additional pages with more information about the ICD Programs, policies, and updates. Many of the features are now more view-friendly, like the calendar. This is the best resource to stay in-the-know about the happenings through the Mon Valley Institute for Career Development.

2017-2018 Tuition Reimbursement

All Tuition Assistance invoices should have been submitted for reimbursement from 2017. Please contact the ICD Coordinator if you have any lingering receipts or if you have registered for 2018 classes with an approved accredited institution.

Tino Fulimeni Memorial Scholarship Winner

Congratulations to Aubrey Yezovich who was awarded a \$1000 Scholarship through the National ICD. Aubrey is the daughter of USW-E.T. Local 1219 member Stephen Yezovich. 2018 Scholarship information is now available at <http://icdlearning.org/resources/tino-scholarship>

ICD Holiday Closing: Mon., January 15, 2018
