Here is another answer to a frequently asked question:

Q: WHAT IS THE TUITION ASSISTANCE BENEFIT THROUGH THE ICD?

A: Every active steelworker is entitled to \$1800 per year to apply toward credit and non-credit courses provided by schools recognized as accredited institutions or organizations. Funds can also be applied to ICD approved online and subscription-based curriculum. Classes must meet the primary purpose of providing *career or educational development*.

Eligible costs include tuition, books, and course related fees. Generally, costs incurred by the member are reimbursed by the ICD; however, there are agreements with local colleges and universities to direct pay the institution. Contact the ICD Coordinator for more information on the use of **Tuition Assistance** funds.

LEARNING OPPORTUNITIES WEEK

June 11-15, 2018

The Mon Valley ICD will again participate in *Learning Opportunities Week* as designated by the ICD Governing Board and National ICD to promote the education and training benefit available to Steelworkers.

“Learning Opportunities Week is a time when we use our best collective effort and energy to promote the local Career Development Programs and all of the learning opportunities that our participants have.”

Your ICD Local Joint Committee representatives will be on site at each of our plant locations in the Mon Valley that week, with give-aways, raffles, and information about all things ICD!

The week will conclude with an ICD hosted event:

Details are forthcoming so please check the ICD website, USW local halls and plant postings, upcoming e-newsletters and Facebook. You won't want to miss it so mark your calendar!
